## Important Notice!

In Computing Interest on savings accounts, we have adopted the method used by the Associated Savings Banks of San Francisco.

### The Rules.

For the purpose of computing interest, the year is divided into four calendar quarters—January 1 to March 31, April 1 to June 30, July 1 to September 30, and October 1 to December 31. On deposits made during the first ten days of each quarter, interest is allowed from the first day of the quarter. Deposits made after the tenth day of each quarter must wait until the first of the next quarter before drawing interest. On deposits withdrawn, interest is forfeited for the quarter during which they are withdrawn.

Interest is payable semi-annually on July 1 and January 1. Where an account is closed before dividend date, no interest is allowed for the period since January 1 or July 1 last preceding.

Withdrawals are charged first against most recent deposits and, when these have been exhausted, then against the interest-bearing balance on hand at the first of the quarter. This is known as the quarterly method because interest accrues quarterly, though payable semi-annually. It is also known as the Eastern method, because with slight modification it is generally used by the Eastern savings banks.

### SAVINGS DEPARTMENT

TO OUR old friends, loyal and true; to our valued new friends, and to those whose freindship we strive to deserve, we heartily wish unmeasured happiness and good fortune throughout the coming years.

WITH GRATEFUL appreciation for all the favors received by us from you, and for that priceless though intangible asset, your good will, which we prize beyond measure, we seek to merit your confidence, and aim to serve you helpfully in the future.

### PRACTICAL RECIPES

#### SIMPLE RULES WILL INSURE SUCCESSFUL BREAD MAKING

Bread dough rises most rapidly at a temperature of about 86 degrees F., and if it can be watched carefully so there is no loss of time at any point, this is the best temperature. Under other circumstances a lower temperature, about 80 degrees F., is better. It is easy to keep the proper temperature if the dough is put into a bread-raiser or a fireless cooker and a thermometer used. Experienced housekeepers know the right temperature for raising and baking bread by the sense of feeling, but uniform results are most easily obtained by the use of a thermometer.

Dough should be kept covered while it is rising; otherwise a crust will form and interfere with the expansion. Some housekeepers brush the dough with melted fat, but this is not necessary if the dough is well covered.

Beginners often have difficulty in determining when the dough is

ready to be divided into loaves and put into pans. A good rule is to measure its volume. The dough for each loaf, if made out of hard-wheat flour, should amount to three pints; if made from soft flour, to about two and a half pints.

The levels to which these masses of dough will reach in the mixing bowl can be determined in advance and marked. If one loaf of bread is to be made, before mixing, pour three pints of water into the bowl and mark the point to which the water comes. This will indicate the height to which the dough should rise.

When recipes direct that dough be allowed to double or treble in volume, it is convenient to have a measuring glass to determine the expansion. An ordinary tumbler will do, but a glass of smaller diameter, like a jelly glass, is better. Before the dough is set to rise, pack a small piece of it in the glass. Note the height to which it comes and mark the place it will reach when its volume has doubled or trebled, as the case may be. Put this beside the large loaves of bread and use it as an indicator.

#### HOW ABOUT THAT INCOME TAX?

At the office of Collector of Internal Revenue John L. Flynn, it has been announced that forms 1040, for the return of individual income tax in excess of \$5000, have been mailed to all taxpayers who filed a return last year. Failure to receive a form, however, does not relieve a person of his obligation to file a return within the time prescribed.

It was further announced that forms 1040-A, for the individual return under \$5000, are being made ready for the mail and will reach the taxpayers within a week. Income tax conditions are the same this year as last. The final date when returns must be in the office of the collector is March 15, 1921.

#### WHAT'S THE MATTER?

When farmers receive such low prices for their products it becomes a question as to whether or not they will raise more than merely enough for their own use, and yet city dwellers are forced to pay exorbitant prices for these same products, it is evident to any sane person that there is something radically wrong with our system of distribution.

When southern cotton planters become desperate because they can not sell their cotton crops for enough to pay the cost of production and marketing, and yet northern people are paying high prices for cotton goods, we are again inclined to the belief that there is a gentleman of color lurking somewhere in the woodpile.

Every one is expecting the city laborer and the skilled mechanic to voluntarily accept a reduction in pay in order that prices may be brought down to normal. Many of them are accepting such reductions, but they continue to pay high prices at the stores for the clothing that they wear and for the food they eat.

Manufacturing prices are being reduced, but wholesalers and retailers are not making proportionate reductions. They are persistently endeavoring to grasp every penny in sight. That at least is the situation in the cities, and city conditions are reflected to a certain extent in every town and hamlet in the country.

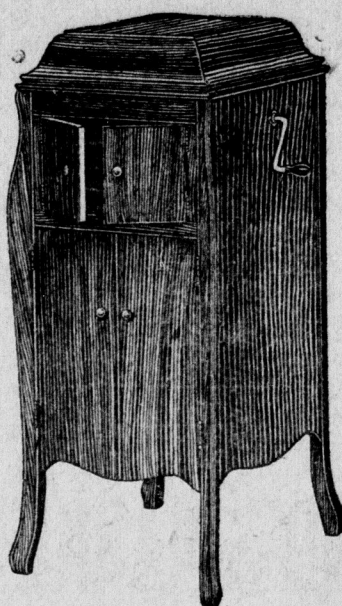

It is hopeless to appeal to patriotism or the spirit of fair play. Neither is promiscuous by its presence in the average counting room. There remains, then, nothing but law—stern and inflexible.

The new congress should make this one of its first duties. A law should be passed imposing a heavy jail penalty for anything in the nature of profiteering. If necessary the law should require that the wholesale price be plainly marked on every article of merchandise that is sold at retail. The honest merchant who is satisfied with a fair profit could find no just cause for complaint. It would even work to his advantage.

The profiteer would turn heaven and earth to prevent the enactment of such a law. And that, to our mind, would be the greatest argument in its favor.

This is the season when men begin to look sheepish. They just can't resist breaking a few of those resolutions.

## Sierra Productions Incorporated

1118-1120 Hewes Building

Telephone, Douglas 1684

San Francisco, California

The SIERRA PRODUCTIONS, INCORPORATED, is organized under the corporation laws of the State of California.

The CAPITALIZATION is \$150,000, all Common Stock, divided into shares of \$10 each, and the shares are now available to the investor.

The immediate purpose of the SIERRA PRODUCTIONS is the making of a series of fifty-two one-reel COMEDIES, under the general title of

"MOVIE MIS-INFORMATION,"

or the "News As It Might Have Been." The Comedies will be based on real news items selected from the daily newspapers of the country.

For several very cogent reasons the Sierra Productions specialize in short comedies.

First—The market is seeking pictures of this particular comedy type.

Second—They are the best money makers in the picture industry, because every theatre wants films of a humorous character.

Third—The cost of making is so small compared to the returns that the cost item becomes almost negligible.

Then a Fourth Reason might be that it's good for people to laugh and to be happy.

An outstanding market for the comedies, their low cost of production and the continuous use in the theatres are the surest indications of their money-making ability.

If you, Mr. Investor, will permit a representative of the Sierra Productions, Incorporated, an interview and come to that interview with an open heart and mind to the facts in the case, we are perfectly safe in saying that you will be fully convinced of the solidity, the integrity and the financial advantage of the program of production.

#### SPECIAL

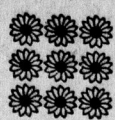

Stockholders will be permitted to visit the Studios at any time during the making of the comedies and, should they so desire, will be given opportunity to appear in the pictures.

This is the investor's opportunity and worthy of every consideration. If you will write your name and address in the form below and mail to the office of the company, full information will be sent to you.

### CITY TRUSTEES HOLD LENGTHY SESSION

City Attorney Shows Receipt for First Water Works Payment; Fire Dept. Discussed.

Wednesday evening the council chamber of the city hall was the scene of a rather heated session of the board of trustees. Controversies were quite frequent, and more than once Mayor Grundy was compelled to rap for order.

City Attorney John F. Davis reported that the city had made the first payment on the purchase of the water system from Robert Hayes Smith, and exhibited a receipt for \$18,750, the amount called for in the contract for the first payment.

City Attorney Davis also reported in the matter of Patrick Kane, Harry Palmer and August Lund vs. William F. Wedell et al. for the city of San Bruno (action to prevent purchase of above water system), that the plaintiffs' attorney, W. Black, has filed notice of intention to appeal the case in the supreme court. City Attorney Davis was instructed to take whatever action necessary to represent the city.

City Attorney Davis also notified the board of the action of Mrs. Rose vs. the city of San Bruno, for damages in the amount of \$2116.25, alleged to have been done by the contractor in charge of improvement work in Third addition, when a fence was moved back to property line according to city maps. This matter has been in court for over a year, and the city attorney stated he did not believe anything would arise from the case, but would watch it, however.

City Marshal William F. Wedell reported that he had ordered the owners of goats to keep them within tight enclosures. He also reported having warned several as to driving overside walks. The excuses given, he said, were very serious.

What came nearly being a disastrous fire last Monday was averted by the prompt action of those at hand, when some tar that was being used in the construction of the ice-box in the new building now being erected by H. Schmidt became ignited. Prosper Bou and one of his men were both painfully burned about the hands and face. The building was but slightly damaged.

### FORMER SAN BRUNO WAR HERO DIES AT LETTERMAN HOSPITAL

Vernon Hanks, a former resident of Fourth addition and well-known here, died last Sunday morning at the Letterman General Hospital from injuries and sickness received while on duty with the American forces in France.

stated, were that the streets in these particular sections were impassable. The matter of the streets was referred to the board of public works.

City Marshal Wedell reported the existence of a shack in Belle Air Park that was a nuisance. Motion was passed to notify owner of same to remove it.

A building permit was granted to Paul Schmidt of the San Bruno Lumber and Supply Company to build a four-room dwelling in Fourth addition.

Mr. Gorman of Fourth addition was denied a building permit until such time as he can furnish plans and specifications to comply with existing ordinances.

A letter from G. A. Helmore, owner and publisher of the San Bruno Herald, was received, notifying the board of the purchase and absorption by him of the Peninsula News, the official organ of the city. He requested that a motion be passed recognizing the combined paper as the official city paper, which was done.

A communication from the Pacific Gas and Electric Company, stating its willingness to remove the poles along Huntington avenue, between Forest lanes and San Bruno avenue, as soon as the curb line is established, was referred to City Engineer George A. Kneese.

J. F. Cheetham, former proprietor of Cheetham's Tavern, notified the board that he had sold out his interests and would not use permit to erect an oil station as planned.

Two communications from T. Ahern of the Southern Pacific Railroad Company, one concerning the cost figures on the installation of the automatic wigwag signal for the August avenue crossing, the same being a point of discussion at every meeting for the past six months, and the other pertaining to the cleaning of the creeks under the several bridges along the right of way, were ordered filed.

A joint communication from Mrs. J. H. Forgey and Mrs. Belle Harris, requesting a light at Seventh avenue and Walnut streets in Belle Air Park, was referred to the lighting commis-

sion. Their request for a waiting station at the car stop near the Southern Pacific station was not acted upon.

Albert T. Smith of Fifth addition commended the action of the trustees in having a certain electric light removed. He also requested that the trustees boost with South San Francisco for the establishment of an electric car line between here and San Francisco along the bay shore route. City Clerk Nettie A. Willis was instructed to write to him requesting the source of information on this subject.

The request of the executive board of the Community Church that the said church be exempt from payment of water charges, was unanimously granted.

Numerous patrons of the Peninsula Rapid Transit Company again complained of the increase in rates and the poor service now being given by that company. City Attorney Davis was instructed to draft a letter to the Railroad Commission requesting that a rehearing in the matter of rate increases be granted, as no notice was given to the city government here. He was also instructed to personally call and try to arrange for the rehearing.

William Maurer, in a lengthy communication, complained of action of the board of health too numerous to relate here. This was referred to the board of health.

Commissioner of Health Harry Palmer reported that John Schyf had been appointed a member of the board of health in place of S. Perry, recently resigned. The matter of sanitary arrangements for the city hall was introduced by Commissioner Palmer, but action was delayed until the next regular meeting.

A communication from Charles Wallace, requesting that a light be installed near his residence in Fifth addition, was referred to the lighting commission.

Fire and Light Commissioner Patrick J. Kane recommended several needed improvements for the fire house, discussion of which led to several heated arguments. The re-

sult of the discussion was that a letter was ordered sent from the board of trustees direct to the fire department, requesting that it organize along lines of the present ordinance, and thus be recognized by the city. Such action would no doubt bring about the much-needed improvements at the fire house. During the verbal engagement several minor questions became entangled, thus clouding the entire question. The discussion, however, out the fact that the fire company was not organized in accordance with existing ordinances.

Public Works Commissioner John T. O'Conner reported that the pole in question in Fifth addition had been removed. He also reported that the plank walk requested by the Parent- (Continued on page 7, col. 1.)

Teacher Association had been laid between Tucker avenue and the Edgemont school on Elm avenue.

Welfare Commissioner Dr. F. H. Smith reported that S. Lombardi had generously plowed up a large plot of land around the Edgemont school and would soon have same in condition to plant additional trees and flowers. A letter of thanks was ordered sent to Mr. Lombardi, commending him for his public-spirited actions.

Inasmuch as present market conditions are so unsettled, no action was taken in the matter of readvertising for proposed street improvement work in San Bruno proper. The matter will be brought up again in about one month.

City Clerk Willits reported that in answer to a letter sent him requesting that a certain well on his property be covered, August Jenevein replied that he had covered the well several times without avail. He was willing for the city to cover it in whatever manner it sees fit. The board of health was instructed to take necessary steps.

As a result of discussion in the matter of zoning the city, the board of trustees agreed to meeting with the city engineer in executive session at the city hall next Monday evening to go into the subject fully.

In the matter of the shack erected by Mr. Gorman in Fourth addition, the board of health was instructed to take necessary action to abate the nuisance.

After a short public discussion, during which a former resident of San Bruno, J. Wilson, discussed the organization of the fire company, the meeting adjourned.

## DADDIES' CLUB NEWEST S. BRUNO ORGANIZATION

The Daddies' Club, San Bruno's newest organization, held its first regular meeting Monday evening, January 10th, at California Hall. A constitution and by-laws were adopted, after fourteen persons were admitted to membership. The following officers were installed, Mayor A. S. W. Grundy acting as master of ceremonies: S. Lombardi, president; George Edwards, vice-president; George B. Storer, secretary; A. S. W. Grundy, treasurer; J. T. O'Conner, W. J. Flynn, Robert Cryer, H. Thylan, and J. J. Ledwith, committeemen. Meetings will be held on the first and fourth Monday evenings of each month at California Hall.

With twenty-five members within its fold and each member appointed a committee of one to secure new members, this club bids fair to become the banner organization of San Bruno, the target now being aimed at. As this organization is pledged to help and assist the Parent-Teacher Association whenever called upon to do so, this community will soon have two very strong associations working for the benefit of the young folks of this locality. All other worthy problems will be taken up and acted upon.

All of the daddies of San Bruno are invited to enroll themselves as members of the Daddies' Club.
